

Stairlift for elder friendly home

The most advanced and widely used stairlifts in the world, helping thousands of people worldwide to safely and comfortably use their stairs and enjoy mobility in their homes again. These Stairlifts come in three models, the indoor, outdoor and curved. Any one of these can be installed and be a part of your elder friendly home with absolutely no structural changes.

- The **Indoor Stairlift** is the perfect choice for anyone with a 2-story home with a straight staircase.
- The **Curved Stairlift** will be a better choice for more than 2-story homes or institutions looking for modifications for senior friendly infrastructure.
- The **Outdoor Stairlift** option is also available for private homes or institutions looking for mobility solutions for outdoor stairs.

Key Features of Stairlift

 Rack And Pinion Drive

 Max Capacity
300 lbs

 Lockable Swivel Seat

 Five Safety Sensors

- ① Padded seat and backrest for maximum comfort
- ② Can be operated with the lightest of touches. Perfect for those with limited dexterity.
- ③ A safety belt is installed on all of our stairlifts, so you feel secure at all times.
- ④ Our slim fold away design has folding arms, seat and footrest, so other people can continue to use the stairs.
- ⑤ A lockable swivel seat means you can get on and off your stairlift without twisting your body.
- ⑥ Railing is secured directly to your stairs, not to the wall. So there's no structural damage to your home.
- ⑦ A lockable on/off switch provides additional child-friendly safety.
- ⑧ A diagnostic digital display allows you to see the exact status of the stairlift at all times.
- ⑨ Five safety sensors on the footrest and carriage stop the lift automatically should there be any obstruction on your staircase.
- ⑩ Two remote controls are provided so that you can have the convenience of being able to share the stairlift with a loved one.
